Welcome

I am delighted to welcome you to Barcelona for the “Trends in Surgical and Medical Retina” Meeting. I hope you will enjoy this Mediterranean city and all it has to offer.

The Meeting will be held at the Institut de Microcirurgia Ocular (IMO), in the new building located on the Tibidabo hill side. The Meeting provides the opportunity for all participants to keep abreast of the latest technological and scientific advancements in the medical and surgical retina. Recognised international leaders from the field of retina have worked hard to make this Meeting an outstanding scientific event, which includes a long session of live surgery at the same eye Institute.

On behalf of the organisers and IMO doctors, I welcome you and wish you a most successful stay, personally and professionally.
