

Dr. José Luis Güell

Founding partner of IMO and Coordinator of the Cornea, Cataract and Refractive Surgery Department of the IMO. Doctor of Ophthalmology from the Autonomous University of Barcelona (UAB) and Coordinator of Anterior Segment at the European School for Advanced Studies in Ophthalmology (ESASO) (USI in Lugano). President of the European Society of Cornea and Ocular Surface Disease Specialists (EUCORNEA). Lecturer in the Master's Degree in Cornea and Refractive Surgery and Master's Degree in Anterior Segment of the IMO, Institute of Ocular Microsurgery

License Number: 20.305

Curriculum

Professional Profile

Founding partner and doctor specialising in cornea and refractive surgery at the Ocular Microsurgery Institute, spokesperson for the IMO Foundation and professor on the Master's Course in the Anterior Segment and the Master's Course on Cornea and Refractive Surgery run by the IMO. Coordinator and professor for the ESASO's Cornea and Refractive Surgery Department.

His areas of interest are lamellar and endothelial keratoplasty, complex cataracts surgery, reconstructive procedures for the anterior segment, including keratoprosthesis, refractive surgery, particularly excimer and femtosecond laser, as well as the implant of intraocular phakic lenses (Artisan-Artiflex) and intrastromal corneal rings.

He took a Fellowship in the Cornea Unit of the Cornea and Refractive Surgery Department at Emory University, Atlanta, USA. In 1999, he presented his doctoral thesis with honours entitled In situ laser-assisted keratomileusis. Development of the technique for the correction of myopia and astigmatism at Vall d'Hebron University Hospital.

Training

Dr. José Luis Güell is a graduate in Medicine and Surgery from the Central University of Barcelona (1977-1984). In July 1999, he presented his doctoral thesis with honours entitled "In situ laser-assisted keratomileusis." Development of the technique for the correction of myopia and astigmatism at the Autonomous University of Barcelona.

He completed his residency at the Autonomous University of Barcelona, Vall d'Hebrón Hospital (1986-1989), as well as a Fellowship in the Cornea unit of the Cornea and Refractive Surgery at Emory University, Atlanta (1989).

Areas of interest

Lamellar and endothelial keratoplasty

Complex cataract surgery

Reconstructive procedures of the anterior segment, including keratoprosthesis (or artificial cornea)

Refractive surgery, especially excimer and femtosecond laser, as well as implanting phakic intraocular lenses (Artisan-Artiflex) and intrastromal corneal rings.

Research
